#### **REMEMBER:**

#### **PLEASE WALK AGAINST the TRAFFIC!!!! THIS IS FOR YOUR SAFETY.**

I do understand in the city you have sidewalks and it doesn't really matter, but in the country we **must ask** that you abide by the "rules of the road". **BIKE WITH** traffic (ditch to your right). **MAKE SURE** your dog is always on the "ditch" side of you and **NOT** on the road side.

*I'd like to thank those of you who are walking with your pets away from the road. For those of you I've seen with your pet on the car side of the road, **MAKE THE SWITCH.** If your dog darts toward traffic, you're not in the way to intervene. **The outcome of that is obvious.** Love your pets enough to keep them safe.*

**NOTE: PLEASE REMEMBER THE STATE, COUNTY AND TOWN LEASH LAWS  
YOUR DOG MUST BE ON A LEASH FOR THEIR SAFETY & THE SAFETY OF OTHERS**

## Town of Barnes Aquatic Invasive Species Projects

Aquatic Invasive Species (AIS) Projects for 2024 are underway. The projects are planned and managed by volunteers on the AIS Committee, the Clean Boats Clean Waters (CBCW) Coordinator, BAISS and Diver Coordinators, and Social Media Coordinator.

The BAISS boat is the town-owned diver-assisted-suction-harvester (DASH) used on the Eau Claire Chain of Lakes to harvest plants known to be invasive species such as curly-leaf Pondweed and Eurasian watermilfoil.

The work for 2024 has been completed on the Headwaters of the Eau Claire Chain: Sweet, Shunenberg and Smith Lakes. There were 48 bags of curly-leaf Pondweed harvested through the efforts of certified divers and volunteer deckhands.

**Upper Eau Claire Lake** currently holds the “honor” of being the heaviest laden with invasive weeds such as curly-leaf Pondweed. It is critical to get these invasive weeds under control and/or eradicated as much as possible. New beds of CLP have been discovered this year. The BAISS pontoon boat is already stationed on Upper Eau Claire and will remain there until June 27<sup>th</sup>. Divers are working Monday to Thursday to harvest as much as possible.

**Lower Eau Claire Lake** has smaller beds of curly-leaf Pondweed but it is essential to keep it from spreading to the river leading to Gordon and beyond. The divers will begin harvesting here on July 1<sup>st</sup>.

**Middle Eau Claire Lake** harvesting will begin July 15<sup>th</sup>. Curly-leaf Pondweed beds are abundant in bays near the public boat ramp, with smaller beds found intermittently in the lake.

### **The divers cannot dive without at least one volunteer on the pontoon.**

*Could you please find time to donate at least one 4-hour shift this summer?*

### **What does a BAISS pontoon volunteer do?**

When divers harvest the weeds, they insert them into a vacuum tube that shoots the weeds back up into the pontoon.

Weeds land into a screened rectangle in which the volunteer simply scoops them out, tries to get water out of them, and then inserts them into a garbage bag hung next to the screen.

When a garbage bag gets full, the volunteer changes out the bag.

After returning to the dock the volunteer helps to carry the bags to the property owners' designated roadside spot for pick up by another volunteer.

To learn more about the Barnes Aquatic Invasive Species please visit the Town of Barnes website and click on Committees/Aquatic Invasive Species. <https://Townofbarneswi.gov>

Click on Committees/Aquatic Invasive Species/Volunteer to register as a Volunteer to be kept informed of AIS Projects and to find the BAISS Schedule for 2024.

You can also email AIS Coordinators at [townofbarnesais@gmail.com](mailto:townofbarnesais@gmail.com).

# IT'S FOOTBALL TIME AGAIN !!!!!

The Green Bay Packers were founded August 11, 1919 when the Indian Packing Company agreed to sponsor a pro football team under the direction of Earl "Curly" Lambeau. The team joined the NFL in 1921 and is the third-oldest franchise in the league.

ONE GREAT MAN

**Happy birthday to the GREEN BAY  
PACKERS!**

**On this day, 105 years ago... The  
Packers were born!**

The **Arizona Cardinals** are the oldest established team in the NFL. They were established in 1898 as an independent team and joined the NFL in its founding year of 1920.

Depending on where you search, the Chicago Bears started in 1920, stating that they and the AZ Cardinals both were in 1920, and the Green Bay Packers started in 1921 even though we know when they started.

So I assign you a Trivia question ... who are the 3 oldest teams and in what order.

### Noteworthy:

#### “1000 Books Before Kindergarten”

Folders are now ready! A free and easy-to-use incentive-based program for parents and caregivers with children, ages birth - 5 years to promote early childhood literacy.

In scenic Granite Harbor, life has continued on—quiet and serene—for decades. That is until a local teenager is found brutally murdered in the Settlement, the town's historic archaeological site. Alex Brangwen, adjusting to life as a single father with a failed career as a novelist, is the town's sole detective. This is his first murder case and, as both a parent and detective, Alex knows the people of Granite Harbor are looking to him to catch the killer and temper the fear that has descended over the town.

The back patio is now open during the beautiful days this summer! We have nice, NEW patio furniture. Brought to you in part by the “Building Strong Libraries” grant from Bayfield County Library Committee.

## OBITUARIES: Remembering Loved Ones Lost

### **DONALD WILLIAM ANDREWS**

**December 27, 1928 to July 15, 2024**

Donald Miam Andrews, born on December 27, 1928 in Chicago, Illinois passed away peacefully on July 15th, 2024, In Orange County, California.

Donald proudly served his country in the United States Army from 1950 to 1952 during the Korean War, stationed in Germany. His service was a testament to his dedication and patriotism.

In October 1953, in Rockford, IL, Donald married the love of his life, Carol Ruth Tanner. Their union was blessed with two sons, Bruce Milan Anders and Douglas Fredric Andrews. Donal was a devoted husband, father and grandfather, who's family meant everything to him.

In 1956 Donald bought and successfully operated the Ruppert-Dreher Typesetting Company, located at 3327 W. Jefferson in Rockford, Illinois for the next 20 years. After the sale of Ruppert-Dreher in 1976, Don served as typesetter for the weekly "Valley Journal" of Carbondale, CO. Don and Carol subsequently had residences in Madison, WI and Barnes, WI before moving to Orange County, CA.

Donald was an avid swimmer, runner, hiker, and golfer. He spent countless hours hiking the trails and off-roading the backroads around Glenwood Springs & Aspen, Colorado. These activities brought him great joy and allowed him to connect with nature and his adventurous spirit. He loved to entertain the family with jokes, wit, and occasional spontaneous dance.

Donad is survived by his beloved wife, Carol Tanner Andrews; his sone, Bruce Milan Andrews of Laguna Woods, California and Douglas Fedric Andrews, (Debbie Roller Andrews); and his cherished grandchildren, Ashley Andrews and Connor Andres of Mission Viejo, California. He was preceded in death by his parents, Edwin Milan and Margera Aulabaugh Andrews, his brother, Edwin Hugh Andrews, and his sister Miriam Andrews Paraschou (Father Parry Paraschou).

Donald Milam Andrews will be remembered for his hard work, love for his family, his witty sense of humor and the legacy he leaves behind in the hearts of those who knew and loved him. He will be deeply missed.

H was laid to rest at Miramar National Cemetery, San Diego on July 31, 2024.

# OUR COMMUNITY

Families are invited to join the 1,000 Books Before Kindergarten program at the Drummond Public Library.

The 1,000 Books Before Kindergarten program is a nationwide challenge that encourages parents and caregivers to regularly read aloud to their children. By reading just one book a night, families can reach the 1,000 book goal in three years and provide their children with essential early literacy skills.

Research shows that the most reliable predictor of school success is being read to during early childhood. Reading to children from an early age can help close the vocabulary gap and prepare children to enter kindergarten with the skills they need to succeed. Most importantly, sharing books with the children promotes a lifelong love of books and reading.

The 1,000 Books Before Kindergarten program is available to all families with children between the ages of birth and five years. Registration is open.

Photos and milestones with incentives for our young readers are to be displayed in the library and on social media.

For more information, contact the library at the information listed below.

The program is free of charge.

## Drummond, Wisconsin Choir to Sing with Foreigner

May 20, 2024 by Pat Brink

*We are so proud of you*

DRUMMOND, Wi — The band Foreigner will be at the DECC this September. The group will have a local high school choir join them onstage to sing with the band. Four local schools were competing for this honor and this morning the winner was announced on KQDS radio. The top vote-getter to sing with Foreigner was Drummond High, a small school with 47 of the 100 students in the choir.

Drummond's Choir teacher, Nick Kuka found out the contest results this morning.

"I had a high schooler come busting in my door singing "I want to know what Love is at the top of his lungs," said Kuka.

It wasn't just the students who were excited.

"Our School has cameras, said Kuka. "You would have seen me running at full speed up and down the hallways telling as many people as I could. "

Kuka said he is excited and proud of the students and the memories they will all have, thanks to Foreigner.

Edited to add: DHS was the smallest of the 4 schools to enter and I'm hearing over 3000 votes. 2nd place had around 2100 votes!

## BARNES AREA HISTORICAL ASSOCIATION NEWS

As the renovation of the Pease One-Room Schoolhouse keeps moving ahead, we continue to search for early schoolhouse items to complete our "replica early 1900s classroom room" within a portion of the building. Artifacts related to all of Barnes' early schoolhouses will be displayed throughout the building, along with historical documents, photographs, collected memories, etc. Our hope is to educate and inspire an understanding of what "life within these schools" was like for students, teachers, and community members.

\*\* If you have any items that might be in need of a "new home", please let me know. They will be warmly welcomed into our schoolhouse and greatly appreciated! I will happily arrange to pick up any items and cover any costs that might be involved. If you have any relevant items that are not on our list, please let me know. I'd be interested in learning more about them!

Updated list of Items being sought for the Pease One-Room School:

- Early US Flag [for wall mount with pole]
- Hand-held slate boards; Erasers & box of chalk
- Organ stool
- Old textbooks – K-8 grade levels [pre-1940]
- Kerosene lamps [wall-mounted style and hanging style]
- Water dispenser [5 gal. pottery with spigot or similar]
- Table model, battery-powered Radio [for "School On the Air" programs]
- Lunch buckets, pails, boxes
- Globe [pre-40s would be interesting - we have one dated to the 70s]
- Cursive writing scroll and other classroom teaching resources
- Small teacher's desk or table
- Two full body mannequins: one adult female [for the schoolhouse teacher; one elementary age child/student]
- Early 1900s garments [dress for the teacher; daily school clothing/wear for a young girl or boy. Written "memories" Yours, or stories from your parents, your grandparents of "The One-Room School house Days"...as a student, as a teacher; traveling to school; recess games; rules & responsibilities; favorite subjects, etc.

Thanks for your help!

## MacQuarrie Books

The *Barnes area Historical Association (BAHA)*, as part of their Gordon MacQuarrie Program, publishes and offers four books of MacQuarrie authored stories that have never before been published in book form. Editor Dave Evenson has researched *The Milwaukee Journal / Sentinel* and all the outdoor sport magazines that had published Gordon's works and discovered many stories that did were not included in Zach Taylor's famous six books of MacQuarrie stories. Dave has produced these new books and they have become very popular additions to a reader's bookshelf and MacQuarrie personal collection.

In 2018, Dave produced *Right Off The Reel (ROTR)*. Gordon's byline at the Journal from 1936 through 1956 was titled *Right Off The Reel*, and among these many columns were a lot of stories about *The Old Duck Hunters Association, Inc.* This first book is full of stories about Hizzonor and Gordon and their many adventures and escapades taken from those columns.

Then in 2019, Dave created a second book of MacQuarrie's Milwaukee Journal columns titled *Dogs, Drink and Other Drivel (DDOD)*. *DDOD* brought many more stories from Mac's pen that have never before been read unless you received the Milwaukee Journal in his days at the Paper between 1936 and 1956. *DDOD* reveals stories that as Dave says are, "The *further* adventures of Gordon MacQuarrie" which would be a good subtitle for this new book.

In 2022, based on extensive research done by Keith Crowley when he wrote Gordon MacQuarrie's Biography *Gordon MacQuarrie: The Story of an Old Duck Hunter*, more magazine stories came to light so Dave produced a third book, *Found Stories of the Old Duck Hunters (FSODH)*. This book contains magazine stories not previously published in book form. This book has six Old Duck Hunters stories and twenty three stories about other escapades of Mac by himself with friends and associates. This book, added to the other two books, becomes an important second Trilogy of MacQuarrie stories.

These three books form a new triplicate and are available in hard cover and in a boxed set. Placed alongside a boxed set of the famous Zack Taylor Trilogy, it joins with to capture all of Mac's ODHA stories, hunting and fishing stories and stories of his friends and neighbors that he wrote for the newspaper and the various outdoor sporting magazines of his day, all in six books.

With access to all columns and magazine articles that Gordon ever wrote, Dave discovered a lesser known passion that Gordon had, muskies. Gordon had a large interest in muskie fishing and was abreast with the events of the world record muskies caught in his day. So, *MacQuarrie on Muskies (MOM)* became the fourth book, produced in 2023.

These books can also be ordered using the form on the backside or can be ordered online through the BAHA website [bahamuseum.org](http://bahamuseum.org) by clicking on "MacQuarrie" and then on "Bookshelf".

### Gordon-Barnes Garden Club July Meeting

On July 16<sup>th</sup> twenty garden club members and two guests enjoyed a beautiful day in Duluth. July and August are traditionally the club's times to tour both professionally maintained gardens and also those of local members and friends.

On Tuesday, the group started out at Enger Park where they could wander through different styles of gardens including a Zen garden. It was a great day to be outside, so members picnicked in the pavilion at Enger.

After lunch everyone traveled over to the Rose Garden on the shore of Lake Superior where more beautiful flowers garden art awaited them. Not to mention the spectacular view of the big lake on such a perfect day. All in all, it was a wonderful day for a tour.

We are not only good time girls though. This summer, members have maintained the gardens around the Barnes Town Hall and Office. They have also been helping with the ongoing process of enhancing the gardens out at Tomahawk Park. Enjoy the beauty!

Next month, our group are going to enjoy the gardens of two of our own members. We will meet at one of the gardens, figure out lunch, and then travel to the other right here in Barnes.

## IT'S THAT TIME AGAIN!

Boaters, please remember to remove all mud & weeds from your boats. Drain bilge, live well and motors. Help us prevent the further spread of invasive species. If you would like to further help, consider volunteering to check boats at a local landing this summer.

## **BROWN RECLUSE SPIDER**

At this time of year, this is worth seeing. Show this picture to your spouse, your kids, grandkids, and friends. It could save their lives. Remember what this Spider looks like and be careful while cleaning, as told below.

It's summertime & cleanup is going on. Be careful where you put your hands. They like dark spaces & woodpiles. Also, cool areas in the attic....

The Brown Recluse Spider is the most dangerous spider that we have here in the USA. A person can die from its bite. We all should know what the spider looks like.

Please be careful. bites are dangerous and can have permanent and they like the darkness and tend to live in storage sheds or attics or other areas that might not be frequented by people or light.

If you have a need to be in your attic, go up there and turn on a light and leave it on for about 30 minutes before you go in to do your work.

# GENEALOGY - GETTING STARTED

IN SEPTEMBER WE'RE BRINGING SOME GREAT STUFF TO THE TABLE FOR SEARCHING AND PRINTING

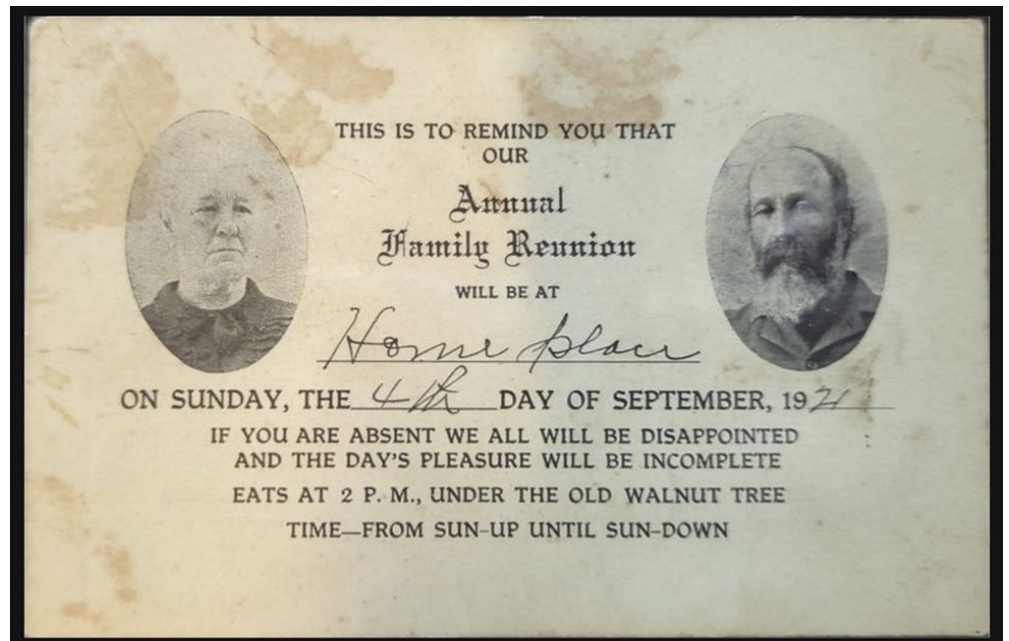

My mom's (Joyce Frierhood) family is from Michigan and they've had a family reunion every year since 1921, "formerly" since 1924 so they are celebrating the 100th Stuhr-Schwerin Reunion this summer.

One of my best memories is taking her to Michigan for the reunions when I could. I treasure that time I was able to spend with her and meet distant aunts, uncles and cousins.

**Fun fact:**

Mom & Viola Frierhood were actually cousins before they were sister-in-laws. Mom was from the Stuhr side and Viola was from the Schwerin side.

# ROB'S CULINARY CHRONICLES

## GRILLING PORK

By Rob Lynch

"Pork. The Other White Meat." was an advertising slogan and campaign developed in 1987 by the National Pork Board to increase demand for pork and change its reputation as a fatty meat.

Sometimes we forget about pork products because we are too busy grilling beef, seafood, and chicken. Grilling pork offers a delicious, smoky flavor that enhances its natural juiciness. Whether you are cooking pork chops, tenderloins, ribs, or sausages, the key to successful grilling is maintaining the right temperature and using the appropriate seasoning.

Marinating the pork beforehand can infuse it with additional flavors, and applying a dry rub or glaze during grilling can create a tasty crust. It's essential to preheat the grill and oil the grates to prevent sticking. Monitoring the internal temperature with a meat thermometer ensures the pork is cooked to a safe and tender perfection, typically reaching an internal temperature of 145°F for chops and loins.

When grilling pork, it's important to allow the meat to rest after cooking. This step helps the juices redistribute throughout the meat, resulting in a more flavorful and moister final product. Different cuts of pork may require varying grilling times and techniques. For instance, pork ribs benefit from a longer, slower cook over indirect heat to become tender, while thinner cuts like chops or medallions can be cooked quickly over direct heat. Pairing grilled pork with complementary sides like grilled vegetables, coleslaw, or corn on the cob can create a well-rounded, satisfying meal that highlights the smoky, savory flavors of the meat.

I have found that pork tenderloin can be as flavorful and tender as any beef filet mignon. See the next page for a great recipe for stuffed pork tenderloin. ENJOY !!

*Rob Lynch got his start in the supper clubs of Barnes, Wisconsin in the 70's and 80's. His restaurant career spans 30 years in Wisconsin, Minnesota, North Dakota and Florida.*

## STUFFED PORK TENDERLOIN

By: Rob Lynch

### Ingredients:

- 2 lb pork tenderloin
- 2 tbsp garlic infused olive oil
- 2 cups fresh spinach leaves, cleaned & stems removed
- 4 oz thinly sliced horseradish cheese
- coarse sea salt (to taste)
- cracked black pepper (to taste)
- grill seasoning (optional)

### Directions:

- Using a sharp knife, trim the silver skin from the tenderloin. There's not a lot of it but remove it because it's tough.
- "Butterfly" the tenderloin by using a sharp knife and making a cut up and down the entire length of the tenderloin horizontally making sure you don't cut all the way through.
- Open up the tenderloin and make 2 more lengthwise cuts on each side of the original cut, again making sure you don't cut all the way through.
- Lay your butterflied tenderloin on a flat surface. Pro-Tip: It's OK if you pound it flatter using a meat mallet, but don't get too thin or your stuffing will squeeze out when you roll it.
- Brush the flattened tenderloin with garlic-infused olive oil. Season with coarse sea salt and freshly cracked pepper.
- Place a thin layer of fresh spinach leaves to cover the entire tenderloin surface. On top of the spinach, place a layer of thinly sliced horseradish cheese.
- Carefully "jellyroll" the butterflied tenderloin into a tight cylinder.
- Tie with butcher string approximately every 3 inches.
- Brush the outside of the cylinder shaped tenderloin with more garlic infused olive oil.
- Season the outside of the roll with your favorite grilling seasoning, or simply use coarse sea salt and freshly cracked pepper.
- Place over direct, medium-high heat, turning regularly as you want good browning.
- Grill until the internal temperature reaches 145 degrees.
- After resting, slice into 1 inch thick medallions and serve.

How about a great dessert with your tenderloin.....

# GET READY TO CAN !!!!!!!!!!!!!

## TIPS FOR SUCCESSFUL CANNING:

- Select fruits and vegetables when they are at the peak of their quality and flavor, washing them thoroughly before using.
- Follow the directions for each recipe exactly—don't substitute ingredients or change the processing times. Prepare only one receipt at a time; do not double recipes.
- Substitute a cake cooling rack if you don't have a rack specifically made for canning. Place in the canner before you add the canning jars.
- Use only white vinegar when pickling.
- Use a canning funnel, which has a wide opening and sits on the inside of the mouth of the jar, allowing you to fill the jars cleanly and easily. Wipe the threads and rim of each jar to remove any food that spills.
- Reuse screw bands if they are not warped or rusty. Jar lids are not reusable however, so use a new one for each of your canned creations.
- Accurately measure the head space—the distance between the top of the jar to the food/liquid inside. This is critical because it affects how well the jar seals and preserves its contents. A clear plastic ruler—kept solely for kitchen use, is a big help in determining the correct headspace.
- Refrigerate leftover product if there's a small amount left that won't completely fill another jar. Use it within several days.
- Use non-metallic utensils when removing air bubbles from the jar and measuring head space.
- Store home-canned foods in your cupboard for up to one year.

## HOT JARS VS. HOT STERILIZED JARS:

Why do some canning receipts call for hot sterilized jars, while others call simply for hot jars?

If the mixture will be processed in the boiling-water canner for 10 plus minutes, jars just need to be hot.

If it's less than 10 minutes, jars need to be sterilized in boiling water for 10 minutes (or 1 minute more for each 1,000 feet of additional altitude.)

You may ask, why do the jars have to be hot before hand? The liquid/food you're putting in them is boiling hot, thus if the jars are hot (besides the obvious sterilization) you aren't putting hot product into cold jars and taking a chance of them breaking either when the product goes in the jars or when you put them in the water bath.

## PAY ATTENTION TO THE PECTIN

Liquid and powdered pectin are made from the natural pectin in apples and citrus fruits. However, they are not interchangeable. Always use the specific type of pectin called for.

-Taste of Home Test Kitchen

## BEFORE YOU START

Before you start canning, read recipe instructions and gather all equipment and ingredients. Inspect the glass canning jars carefully for any chips, cracks, uneven rims or sharp edges that may prevent sealing or cause breakage. Discard any imperfect jars. Do the same with lids and rings to make sure no dents or dings.
